# Ramada Newmarket

With Safari Group

## PROJECT BACKGROUND

Ramada Newmarket stands as a new milestone in Auckland’s hospitality landscape, boasting 63 meticulously crafted rooms within its architectural framework. The \$22 million project was part of a \$100million mixed-use development and features hotel units, studio units, bedroom apartments and a purpose-built meeting space.

In a testament to their successful collaboration, Wyndham Hotels and Safari Group have embarked on numerous ventures, with Ramada Newmarket marking their ninth joint endeavor

in the country. Building upon the foundation of trust and reliability established through prior projects, including five other Ramada locations, this partnership underscores a shared commitment to excellence in hospitality.

Moddex was selected by Safari to supply & install the balustrading and handrails on the project. Having worked with Moddex before, on projects like La Quinta Hotel, Safari could put their trust in Moddex, knowing we would provide a compliant result, on time and within budget.

## WHY WERE MODDEX SELECTED?

### ON TIME, ON BUDGET

Through our comprehensive end-to-end service, we meticulously oversee every facet of the project journey, guiding it seamlessly from conception to final handover. This holistic approach not only guarantees the utmost attention to detail at every stage but also ensured our client got the most competitive pricing, with adherence to strict budgets and timelines.

### COMPLIANT & CONFIGURABLE

Our pre-engineered designs ensured that every aspect of our barrier solutions meet the highest standards of safety and compliance across various applications.

Additionally, we were able to provide comprehensive PS1 documentation that ensured guaranteed compliance of our balustrade design. The PS1 documentation also benefits in terms of cost and time savings during the sign-off phase.

---

“Excellent interaction, great service. We have used them on previous projects an [they] have a great product.”

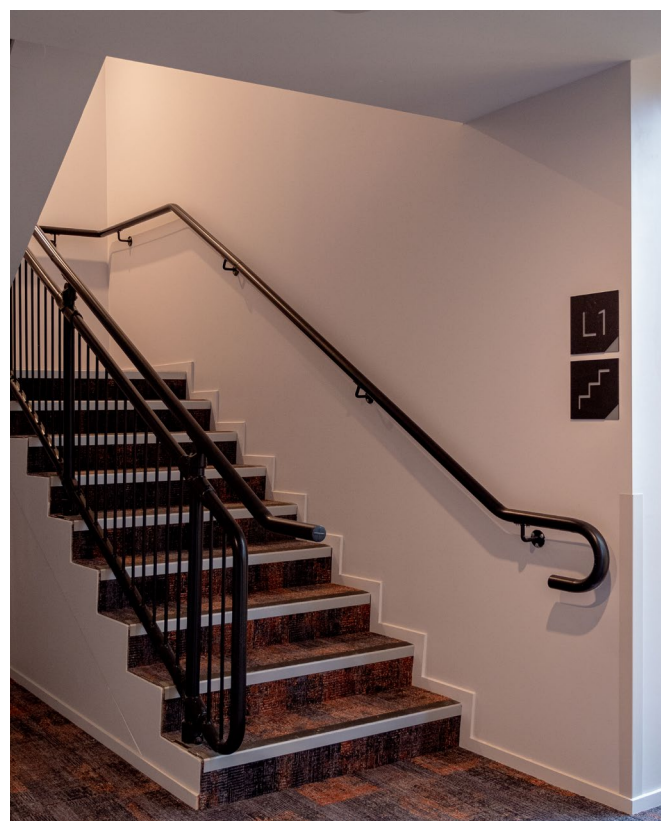

-Director at Safari Group

---

### FAST & EASY TO INSTALL

Towards the end of projects, stress and costs can build up, adversely affecting everyone.

Moddex modular solutions come complete with custom-designed modular connecting components. Being modular, they're adjustable, removing the potential of costly and time-consuming on and off-site customisation at installation stage. Installation times can quite literally be cut in half. We eliminate the need for any on- or off-site cutting, power supply issues, obstructive welding tools or time-delaying site shutdowns.

## With Moddex, Everything Fits™.

Isn't it great when everything just clicks into place? The whole world's going your way and nobody can stop you.

That's the vision of service Moddex has for their customers — they want you to feel that 'everything fits' when you trust them with your project's balustrade, handrail or accessway requirements.
